Surfer Girl

Last call at the bar but we wanna talk longer
I don't live too far, we could sip something stronger
Our route is lit up by the stars
We could walk, we could wander
Or we could dance 'til dawn
Both singing like songbirds
Oh, I'd let you possess my universe
I'm starting to think I'm falling victim to your curse
Don't they say that the good ones get what they deserve?
And we've been looking so long now
We're calling off the search

Walk me to my car, or should I stay longer? Ooh
If you don't live too far, something stronger sounds fun, yeah
Moonlight reflects like a harmony
Your eyes pick up the glow and send it back to me
Tonight the air is sweet like a melody
So I, I take a sip, you'll sing it back to me
Oh

Oh, I'd let you possess my universe
I'm starting to think I'm falling victim to your curse, hey
Don't they say that the good ones get what they deserve?
And we've been looking so long now
We're calling off the search
