

Dancing With Danger

SuRie

Do you wanna, do you wanna start with me?
Think I wanna, I think I wanna end something
Row to hell and back
Where's the sense in that?
Do you wanna, do you wanna dance with me?

Touch me again, the way you used to
More than a friend, you know I miss that wound

I wanna hurt to heal, burn to feel
Go from numb back to me again
Dancing with danger
Dancing with danger

When we hook up, we're hoping for the break up
In a crossfire, waiting for the make up
Taunting a distant voice
Do we have a choice?
Cause you always, always light a spark in me

Touch me again, the way you used to
More than a friend, you know I miss that wound

I wanna hurt to heal, burn to feel
Go from numb back to me again
Dancing with danger
Dancing with danger

I stay when there's no other way
We dive but I feel alive
I stay when there's no other way
I feel alive with you

I wanna hurt to heal, burn to feel
Go from numb back to me again
I wanna hurt to heal, burn to feel
Go from numb back to me again
Dancing with danger
Dancing with danger

Do you wanna, do you wanna stop?
