

## Epilogue

SuRie

She watched and waited  
She hoped and at times she held her breath  
She knows it never changes  
So she won't stick around for something less  
Than what she's worth

Here she stands  
Ready to go again  
You see a woman  
Not afraid to be her own friend

Still reeling from the fight  
Picking up what fell behind  
But this isn't over  
This is where it starts

Who's with me? You know you want to  
All your dreaming, all those things that still could be  
That fire burns within you  
Don't put it out because of all the fears  
You grew to believe

We stand  
Ready to go again  
You see a woman  
Always here to be your friend

Bit weathered by the storm  
But we've all seen the rain before  
It's never over  
Here is where we start

Look into my eyes and tell me that's crazy  
Look into my eyes and tell me I'm wrong  
I'm tired of my excuses  
I know what's in my heart  
This isn't over  
This is where it starts
