

# Man With Map

SuRie

You swept me under  
Swept me up  
Like the leaves we kicked off of our feet  
You took me over  
Patience telling me  
Time will tell if you can listen well

I lose my footing  
Trip on life  
Find multiple excuses to give up  
You keep on pushing  
Perseverance  
Time will tell if you can break the spell

Guide me out of these woods  
I can't see the road  
We can stay off the beaten track  
But still find home  
With you I want to find a way not to feel so alone  
Guide me out of these woods  
It's getting cold  
I don't know which way to go

You say it's easy  
Overthinking  
Will kill the instinct you've got inside  
The rest is lazy  
Consequence, a mix  
Doubt, fear, knowing too much

Guide me out of these woods  
I can't see the road  
We can stay off the beaten track  
But still find home  
With you I want to find a way not to feel so alone  
Guide me out of these woods  
I'm getting cold  
I don't know which way to go

Guide me out of these woods  
I can't see the road  
We can stay off the beaten track  
But still find home  
With you I want to find a way not to feel so alone  
Look, we're out of the woods  
I can't feel the cold  
I know which way to go
