

## Storm

SuRie

Hey, hey brother  
Do you remember when we were kids with no fear?  
Hey, hey sister  
Do you believe in the things we dreamt we'd discover?

I still have faith  
I still believe in chasing rainbows

Storms don't last forever, forever, remember  
We can hold our hands together  
Through this storm, oh oh, through this storm, oh oh  
Storms don't last forever, forever, remember  
We can hold our hands together  
Through this storm, oh oh, through this storm, oh oh

Hey, hey mother  
Am I making you proud or could I do better?  
Hey, hey father  
There's weight on my shoulders but it's not over

I still have faith  
I still believe in chasing rainbows

Storms don't last forever, forever, remember  
We can hold our hands together  
Through this storm, oh oh, through this storm, oh oh  
Storms don't last forever, forever, remember  
We can hold our hands together  
Through this storm, oh oh, through this storm, oh oh

Spread your love, give all you got  
Hold your head up, don't give up, no no  
Hey, hey brother, don't give up, woah woah woah...

Storms don't last forever, forever, remember  
We can hold our hands together  
Through this storm, oh oh, through this storm, oh oh

Spread your love, give all you got  
Hold your head up, don't give up, no no  
Spread your love, give all you got  
Hold your head up, through this storm, oh oh
