

# Taking It Over

SuRie

It's now or never  
Feels like my turn to take it to the next step  
Won't last forever  
We just get one life  
It keeps on getting better

You don't want to waste this  
So now we're gonna swap seats  
We do it in a heartbeat  
I know which way to go  
So now we're gonna swap seats  
We do it in a heartbeat  
I know which way to go

I'm taking it over  
Let me get this right  
I won't mess it up  
There aren't no rules tonight  
I'm taking it over  
Let me get this right  
I won't mess it up  
There aren't no rules tonight

Won't last forever  
We just get one life  
Keeps on getting better

You don't want to waste this  
So now we're gonna swap seats  
We do it in a heartbeat  
I know which way to go  
So now we're gonna swap seats  
We do it in a heartbeat  
I know which way to go

I'm taking it over  
Let me get this right  
I won't mess it up  
There aren't no rules tonight  
I'm taking it over  
Let me get this right  
I won't mess it up  
There aren't no rules tonight

Never have it my way  
Never have it my way  
(Never have it my way, never have it my way, never have it my way, never have it my way)

I made it clear for you  
I see now what to do  
Are you with me or not?  
You know what to expect  
We guess what's coming next  
Are you coming with me or not?

I'm taking it over  
Just taking it over (never have it my way)

I'm taking it over  
Just taking it over (never have it my way)  
(Never have it my way, never have it my way, never have it my way, never have it my way)  
I'm taking it over (Never have it my way, never have it my way, never have it my way, never have it my way)  
Just taking it over (never have it my way)  
Let me get this right  
I won't mess it up  
There aren't no rules tonight  
There aren't no rules tonight  
Let me get this right  
I won't mess it up
