

Win / Lose

Survive Said The Prophet

When the light shines in
It's blinding like a halo
This day glow
It feels like magic

One more time you got me just wishing
One more time you got me just needing
All the time
Yeah, all the time

Win or lose is not the only answer

I can't just sit back or hold on
To feeling trapped inside
It's not as simple as
Waiting to take your turn

If I'm sitting and wishing for some kind of sign
Chances are lost in the moment of time
All the time

Win or lose is not the only answer

We all live to learn
Every step you take gets you closer and
Closer to what you want
Closer to what you are
If we live to learn
Every step we take gets us closer and
Closer to what we want
To who we are
So win or lose
I'm all in this time

We learn to live
We live to learn
So win or lose
I'm all in this time

Win or lose is not the only answer
