

# Always Enough

Susanna Hoffs

I can see you  
Your head's hanging low  
You think you might not make it through  
Take a moment and take it slow

I can hear you  
You say your hopes running low  
You think you might not make it through  
Listen up cause I'd like you to know

Hold tight my boy  
Time will teach  
You to reach  
All that you need  
All those you love

I can feel you  
Unsure head to toe  
You're always saying that you're coming unglued  
I should've told you a long time ago

Hold tight my boy  
Time will teach  
You to reach  
All that you need  
All those you love  
How to believe when I say  
You're always enough  
You're always enough  
You'll never lose my love

I can see you  
I can feel you  
You think you might not make it through  
Listen up cause I'd like you to know

Hold tight my boy  
Time will teach  
You to reach  
All that you need  
All those you love  
How to believe when I say  
You're always enough  
You're always enough  
You're always enough
