

Laughing At Life

Susannah McCorkle

Smile a while,
Laugh in such a happy style
That the world will stop and smile with you.
Why not grin
Even when the others win?
Smile and take it on the chin when blue.

Don't mind the rain drops
Wait 'til the rain stops
You'll find the sun laughing at life
No road is lonely, if you will only
Smile through the tears, laughing at life

Live for tomorrow, be happy today
Laugh all your sorrow away
Start now and cheer up
The skies will clear up
Lose all your blues laughing at life
