

## Erlene

SUSTO

Erlene, she is my baby  
She stays up with me  
When I'm yelling through the night

I say you think I'm crazy-  
She says you are  
But that's all right

There was a time, not that long ago  
Sleeping on the second floor  
Kissing in the bedroom door

I had to go  
And get hypnotized  
Ladies on rectangular screens  
Started saying what I didn't mean

Erlene, she is my baby  
She stays up with me  
When I am yelling through the night  
I say you think I'm crazy-  
She says you are  
But that's all right

Erlene, she is my baby  
She stays up with me  
When I am yelling through the night  
I say you think I'm crazy-  
She says you are  
But that's all right

Driving around without anyone  
Thinking I should probably move  
I can never handle seeing you

Out with someone that I didn't know  
Instead you asked me out for a drink  
You said "I love you and I don't wanna break"

Go to camp to the north side of town  
Up where you can still smoke in the bars

Don't wanna see a single person we know  
Tonight I just wanna drink with you and talk

Erlene, she is my baby  
She stays up with me  
When I am yelling through the night  
I say you think I'm crazy-  
She says you are  
But that's all right

Erlene, she is my baby  
She stays up with me  
When I am yelling through the night  
I say you think I'm crazy-  
She says you are

But that's all right
