Mermaid Vampire

SUSTO

See me, all tangled up in seaweed
I been lookin' for you, do you see me
Breathin' underwater, breathin' fire

That girl is a live wire
She got me in my heart
And set my brain on fire
Deep blue like a mermaid
I wanna swim to the bottom
And chase her around
Said la da da da da
When she play guitar
And singin' it loud

Uh huh
She sing too

Look at you, I see you with a big attitude
Turns out, she's got an introverted way
But she gotta perverted haze and I'm livin' in it

That girl is a vampire
Got me in my heart
And set my brain on fire
Deep blue like a mermaid
I wanna swim to the bottom
And chase you around
Said la da da da da
When she play guitar
And singin' it loud

She sing too, right... uh huh
