

## Rooster

SUSTO

I got a pain in my soul today  
It's hard for me to even try and talk about it  
Old things are goin' away  
But what you can't let go  
Will keep you hangin' around

I feel like I could die  
And do a little bit better  
It goes away in time  
So they say, whatever  
You can't put it all back in the bottle  
So you better let go

That old rooster's crowin'  
His head's held high  
He's walkin' through the garden  
Lookin' for food with his two wives  
Well I wanted it all for myself  
I didn't wanna let go of no one  
But you gotta let a bird fly  
When she's feelin' hemmed in

I feel like I could die  
And do a little bit better  
It goes away in time  
So they say, whatever  
You can't put it all back in the bottle  
So you better let go

I feel like I could die  
And do a little bit better  
It goes away in time  
So they say, whatever  
You can't put it all back in the bottle  
So you better let go  
You can't put it all back in the bottle  
So you better let go
