

## Time, Love & Fun

SUSTO

Time is an object in the sky  
And it's measured by the rate you pass it by  
Every year, you go around  
Have a party, wear a crown

And you do it just like that until you die  
Love is as fleeting as the wind  
If you can catch it, then it let's you in  
It'll take you all around, in the air and on the ground  
Well, you're lucky just to know what you've found  
Lucky to know what you've found

Fun is a three-letter word  
What it means to you, I might never know  
'Cause I am in my own head, all I know is what you said  
And some things like that I just can't let go  
Some things, once you know, you always know

Time, love, and fun  
Time in the sun  
Time, love, and fun  
Time in the sun  
Time, love, and fun  
Time in the sun  
Time, love, and fun  
Time in the sun
