

Weather Balloons

SUSTO

Hold me down like a weather balloon
Tell me how I could ever forget you
Faster now
We got nothing to do

What if we could fly
Right out the window
Go find a new place
Somewhere clean enough to feel
One look in your eyes
Fill me up with hope
It changes my mind
Tells me
I'm not dead yet
No I'm not dead yet

Many times
I've stopped and I've seen
Beauty pass
Me by on a my life screen
A thousand eyes
Do you know what I mean?
"Cause I really love you
I really love you

What if we could fly
Right out the window
Go find a new place
Somewhere clean enough to breathe
One look in your eyes
Fill me up with hope
It changes my mind
Tells me
I'm not dead yet
No, I'm not dead yet
I am not dead yet
