

Ah, so you  
Wish you were sorry, picking up between the line  
To what you, what you, what you can't explain to me  
What you, what you, what you can't explain to me

Ah, so  
Wish you were sorry, picking up between the line  
What you, what you, what you can't explain to me  
What you, what you, what you can't explain to me

Ah, so  
Wish you were sorry, picking up between the line  
To what you, what you, what you can't explain to me  
What you, what you, what you can't explain to me
