

Control

Suuns

From this town, he always felt life was happening somewhere else

Baby knows my friends, baby, don't leave, if I can make believe

Remember LA? Remember what we used to say

It's freedom

Don't you want to tell me, all about that dream?

Am I gonna see you around again?

Come out, come out, come out

You can take, you can talk, you can touch you

Most of these things you can't control

Am I gonna make it out?

Control

Most of these things you can't control

Am I gonna make it out?

Control
