

Fish on a String

Suuns

Yeah I guess I must be some kind of fish on a string
Yeah I know you know, just what I mean
Drag me 'round like it's some kind of joke
Another day with a hook down my throat

Yeah I guess I must be some kind of fish on a string
Yeah I know you know what I mean, yeah you feel the same thing
Drag me down so deep where the light don't get in
While I'm sinking, it's sinking in

Yeah I guess I must be some kind of fish on a string
Yeah I know you know what I mean baby, you feel the same thing
Flapping around and around and around on the floor
Turning blue, washing up on the shore

Another fish on a string, another fish in the sea
Stuck in this glass bowl, but I believe that I'm free
Free to dream in colour, colours I'll never see
Another fish in the sea, another fish on a string
