

# Vanishing Point

Suuns

Spinning these wheels  
I see the tires spin  
Concrete and steel  
And I plug you back into the grid

Digging in these heels  
I stalled and then I slid  
Concrete ideals  
That only comes from within

Would you hold me baby and free up my mind

More than just one real  
To take for a different spin  
Here you can take the wheel  
Take it where I've never been

Remove the seal  
I feel the sunshine in  
Driving all night baby  
And I want to get back to the grid

Would you dance with me baby and clear up my mind

More than just one real  
More than just one real  
All you have left is magic

More than just one real  
More than just one real  
All you have left is magic

Open up your heart  
I know you love me  
Oh I feel good, feel like coming down  
Open up your heart  
I know you love me  
Oh I feel good, feel like coming down  
Love me, yeah I know you love me  
Would you help me baby, free up my mind

More than just one real  
More than just one real  
All you have left is magic

More than just one real  
More than just one real  
All you have left is magic
