## **Friend of Mine**

**Suzy Bogguss** 

Twilight I feel the hot wind blowin' See the shadows through the window on the sand The desert sun is hurlin' on And we've got lots of time Oh friend of mine

Lyin' in your arms I'm just dreamin' And I love to feel your fingers on my skin Driftin' in the pearl of night The covers you remain Oh friend of mine

Friend of mine You have always been true And I love the way you hold me And to try my stand with you

Twilight I feel the hot wind blowin' See the shadows through the window on the sand The desert sun is hurlin' on But we've got lots of time Oh friend of mine Oh friend of mine Oh friend of mine! Oh friend of mine
