

Train Of Thought

Suzy Bogguss

Little towns and neon signs fade away inside my mind
There is only one thing I can hold on to
I see pictures in my head replaying every word you said
Every memory's like a thread running through
Everything I do leads me straight to you

This train of thought keeps coming back
It must be on a one-way track
It never stops, just picks up steam
And I can't get off this train of thought

I've tried everything I swear, television, solitaire
But all I do is sit and stare, dusk 'til dawn
I don't know where this heart is bound
The wheels keep turning 'round and 'round
I don't see 'em slowing down
Not as long as I hear this song playing on and on

This train of thought keeps coming back
It must be on a one-way track
It never stops, just picks up steam
And I can't get off this train of thought

This train of thought keeps coming back
It must be on a one-way track
It never stops, just picks up steam
And I can't get off this train of thought
No, I can't get off this train of thought
