

## Cape

Suzy

When the rain is pouring  
Then your face crosses my mind  
Remember that night?  
At times, I could hurt you  
I'm in the vase, like a rose with thorns

When you're blue  
Your shadow is with you  
And I'll say  
"I'll be by your side"  
I'll be there  
I'll hug you when you need  
When you're depressed  
When you're holding on to me

I may not be enough to be all you need still  
Through the wind and rain  
I'm where I want to be by your side  
When you are at your low  
I'll keep my pace with you  
Even if I'm hurt  
Even if I'm lost  
Even when I burst out crying  
I'll love you

Let my lips caress your crown  
Let my arms be your cape  
Nothing can harm you here  
There's nothing left to hide  
The timeless nights drinking  
As lots of bottles of secrets emptied and spilled

When you're blue  
Your shadow is with you  
And I'll say  
"I'll be by your side"  
I'll be there  
I'll hug you when you need  
When you're depressed  
When you're holding on to me

I may not be enough to be all you need still  
Through the wind and rain  
I'm where I want to be by your side  
When you are at your low  
I'll keep my pace with you  
Even if I'm hurt  
Even if I'm lost  
Even when I burst out crying  
I'll love you

I may not be enough to be all you need still  
Through the wind and rain  
I'm where I want to be by your side  
When you are at your low  
I'll keep my pace with you  
Even if I'm hurt

Even if I'm lost  
Even when I burst out crying  
I'll love you
