

# Satellite

Suzy

Why'd you go that far?  
You knew I was coming  
How could you go away?  
You know what I wish for  
I spin around you just like a satellite  
I spin around you just like a satellite

I'm a satellite  
○○ ○○○ [Neoreul maemdora / Around you]  
I'm a satellite  
○○ ○ ○○ [Daheul su eopseo / Can't reach you]  
I'm a satellite, I'm a satellite  
I'm a satellite of you

I just wanna say, I'll be there where you are  
Even if I cry every night and day  
It's not, not, not, not okay  
But, I don't wanna, wanna blame ya  
I just wanna find the way  
I want to where you are  
It's not, not, not  
I just wanna, wanna blame you, not  
I just wanna blame you, not

Why'd you go that far?  
You knew I was coming  
How could you go away?  
You know what I wish for  
I spin around you just like a satellite  
I spin around you just like a satellite

I break down and fall  
'Til you come back  
I lose my stare  
'Til I see you  
I'm a satellite, I'm a satellite  
I'm a satellite of you

I'm always around you  
I shine over you  
I'm a satellite and I can never reach you  
I'm always around you  
(I just wanna say, I'll be there where you are, even if I cry every night and day)  
I shine over you  
(It's not, not, not, not okay but, I don't wanna, wanna blame ya)  
I'm a satellite and I can never reach you  
(I just wanna find the way, I want to where you are  
It's not, not, not, I just wanna, wanna blame you, not  
I just wanna blame you, not)

Why'd you go that far?  
You knew I was coming  
How could you go away?  
You know what I wish for  
I spin around you just like a satellite  
I spin around you just like a satellite
