

# Bones

Svala

Somebody told me  
I should be the one to let you know  
So when the day comes  
I'ma be the one to let you go

'Cause I will follow the ocean  
Will follow the ocean

You gotta hold on, better days are coming  
Yeah, they are coming, need you to know  
Live in the moment, make out with a stranger  
Those days will come, those days will come

I feel it in my bones  
I feel it in my bones

We could be lovers  
But feelings just keep getting in our way  
You put me in your arms, I can't let go

'Cause I will follow the ocean  
Will follow the ocean

You gotta hold on, better days are coming  
Yeah, they are coming, need you to know  
Live in the moment, make out with a stranger  
Those days will come, those days will come

I feel it in my bones  
I feel it in my bones

You gotta hold on, better days are coming  
Yeah, they are coming, need you to know  
Live in the moment, make out with a stranger  
Those days will come, those days will come

You gotta hold on, better days are coming  
Yeah, they are coming, need you to know  
Live in the moment, make out with a stranger  
Those days will come, those days will come

I feel it in my bones, ooh yeah  
I feel it in my bones (I feel it in my bones)  
Yeah, yeah
