Švihadlo

Sám tady stojíš s hlavou v dlaních
Sám tady stojíš, nevidíš
že mám slzy v očích ale ty ničemu nerozumíš,
teď už to víš, já už tě nikdy ráda nebudu mít
Dish me dirt, she dish me dirt
I heard it on my cellular phone
She said she is not coming home
Her friends told me she 's gone for sure
But girl, don't you think I am going to cry
I am not the one that said goodbye
Listen to what I have to say tonight
I am going to wipe you out of my thought
I am going to wipe you out fast
I am going to wipe you out of my heart
Until all trace of you is lost
Dish me dirt, she dish me dirt
Now you left me the dirt in my eyes
When you left me low and dry
I remember the last time I saw you
You looked at me like I had a bad disease
And as you walked away
You thought, I would beg you please
But there is no magic in it, if the fire is not lit
Don't you think I am going to cry
I am not the one that said goodbye
Listen to what I have to say tonight
I am going to wipe you out of my thought
I am going to wipe you out fast
I am going to wipe you out of my heart, Until all trace of you is
lost
Dish me dirt, she dish me dirt
Když myslíš že to pomůže tak jdi na věž,
skokem mi hrozíš to klidně můžeš
jsi hroší kůže a já vím že to zvládneš
dělej co chceš ale můj city neovládneš
lásku silnými slovy neprobudíš
já už tě nikdy ráda nebudu mít
