There's a place in space where violence and love collide inside  
And solid is wide  
And heat it is cold  
And birth is death  
And creation and time are made from destruction  
From fucking destruction  
Fucking destruction  
Fucking destruction  
Fucking destruction  
Now ride! ride! ride! ride!  
Now ride! ride! ride! ride!  
Ride! ride! ride! ride!  
Ride!
