

Cotton Candy Clouds

Sweater Beats

When the world comes crashing down
I'll take you to the moon
Because out there we're safe and sound
We'll play a little tune
About some cotton candy clouds
And when you're having doubts
Just look down
These cotton candy clouds
Just look down
These cotton candy clouds
These cotton candy clouds

Yeah, yeah
Let me take ya up to the top of the moon
Baby you gon' freak when you see the view
Take a deep breath 'fore you blow a fuse
And if you're scared of heights know that I'll be there to catch ya
If you fall I got an extra pillow on your mattress
You lit a forest fire in my heart like burning matches

When the world comes crashing down
I'll take you to the moon
Because out there we're safe and sound
We'll play a little tune
About some cotton candy clouds
And when you're having doubts
Just look down
These cotton candy clouds
Just look down
These cotton candy clouds
(These cotton candy clouds)
