

Do It For Me

Sweater Beats

I've forgotten how to stand
I've forgotten how to speak
I've forgotten how to rest
Because you're really getting under me

And there you go and keep me at a distance
Hanging from the stars
Just out of my reach
But I will wait for you
But I will wait for you
Because you do it for me

I'm a fool for you baby
Cause you do it for me baby
I'm addicted to you lately
Cause you do it for me baby

I'm a fool for you baby
Do it for me baby
(Baby)
Do it for me baby

There you go and keep me at a distance
Hanging from the stars
Just out of my reach
But I will wait for you
But I will wait for you
Because you do it for me (and I'm a)

Fool for you baby
Cause you do it for me baby
I'm addicted to you lately
Cause you do it for me baby

I'm a fool for you baby
Do it for me baby
(Baby)
Do it for me baby

You know how to mend a broken heart
You know how to put the pieces back
Every time I start falling apart
You know how to cover up (up, up, up, up)
(I'm a fool for you baby
(Up, up, up, up, up)
Cause you do it for me baby
I'm addicted to you lately
(Up, up, up, up, up, up)
Cause you do it for me baby

I'm a fool for you baby
Cause you do it for me baby
I'm a fool for you baby
Cause you do it for me baby
