

Doubt

Sweet Pill

Think I'll make it across the street? I doubt it

Pretty much every line
I'm stuck behind
To see the other side
I would not mind

Think I'll make it across the street? I doubt it
Think I'll make it across the street? I doubt it

And for the longest time
I'm stuck behind
I've never really tried
And I won't try

But if I move my feet
I might make it or I might get hit
Right in the gut

Think I'll make it across the street? I doubt it
Think I'll make it across the street? I doubt it

And if I move my feet
I might make it or I might get hit
Right in the gut

Just go
They want you to know
It's not that bad, It's not that bad
It's not that bad
