

## Circus

Sweet

All around people drive me mad like freaks in a traveling fair  
I can't take this pressure no more I feel like a dancing bear

When I close my eyes then it all just disappears

Life is a circus surrounded by clowns  
Life is a circus let's tear the big top down down down down...  
Tear it down

I feel the world is closing in I gotta put on my clown face  
Spitting fire on the high wire and a girl that's bent outta shape

When I close my eyes then it all just disappears

Life is a circus surrounded by clowns  
Life is a circus let's tear the big top down down down down...  
Tear it down

Life is a circus surrounded by clowns  
Life is a circus let's tear the big top down down down down

Life is a circus...  
Life is a circus...  
Life is a circus...  
Let's tear the big top down
