Is It True

Sweet

Another day I waste more time
Still running things around my mind
Should I stay another day
We were lovers so they say
What becomes of love when love is all but gone
How much longer can I carry on

Oh lord can't believe we're through
Is it true baby please don't lie
There's just a memory of what we had before
Is it true baby
Oh please don't lie

And then I stopped and think again
Well maybe we could stay as friends
But do friends act the way we do
Is it me baby is it you
There was a time when we could
Laugh and talk things out
But all we seemed to do is fight and shout

Oh lord can't believe we're through
Is it true baby please don't lie
There's just a memory of what we had before
Is it true baby
Oh please don't lie

Times we had and times we cried
Times when we very nearly put aside
All our differences and all our pain
Those were the times when we would celebrate

Oh lord can't believe we're through
Is it true baby please don't lie
There's just a memory of what we had before
Is it true baby
Ooh I can't lie
