

# Over My Head

Sweet

I know what you're thinkin'  
I know what you're sayin'  
Knowing what you really want from me  
'Cause I feeel it in the air  
But it ain't no cross to bear  
'Cause I believe in the power from the heart  
And everything you say, it just goes...

Over my head  
Do you really mean the things you said  
Over my head

Give me your attention  
Listen to me now  
Put the sound of music in your ears  
Maybe you will follow  
Maybe you will lead  
If you believe in the power you create  
Anything you say, it just goes...

Over my head  
Do you really mean the things you said  
Over my head

Over my head  
Do you really mean the things you said  
Over my head

Let me tell you something  
Let me steal this moment  
To tell you what is really on my mind  
I don't need no flashing lights  
'Cause I'm here with you tonight  
And I believe in the power from the heart  
And everything you say, it just goes...

Over my head  
Do you really mean the things you siad  
Over my head
