

Everybody Come Out In The Sunshine

Sweetbox

Everybody's always on the go
Living day to day and working much too hard
Go so fast nobody seems to know
That running in a circle only goes so far

Step out of your misery clothes
You're way too stressed and it shows
You've got to let it all out
Play an old-school tune, you can all sing along
Top down with the radio on
Right now's the time to get loud, and sing

Everybody come out in the sunshine
It's a beautiful day, throw your troubles away
Everybody come out in the sunshine
At the end of the day everything is okay
Everything is okay
Everybody step into the sunshine

Don't let negative get in the way

You'll turn around and life will pass you by so fast
Got to open up and seize the day
Cause nothing's gonna stop you now you're free at last

Step out of your misery clothes
You're way too stressed and it shows
You've got to let it all out
Play an old school tune, you can all sing along
Top down with the radio on
Right now's the time to get loud, and sing

Everybody come out in the sunshine
It's a beautiful day, throw your troubles away
Everybody come out in the sunshine
At the end of the day everything is okay
Everybody come out in the sunshine
Cause baby everybody is okay
