

Magic

Sweetbox

Say she's the kind of girl me call a ghetto classic
A naughty Shorty that you know possess the magic
She's such a Sweetbox, a man just have to have it
All the waiting that I've done is over now
You came along and showed me love and I knew how
You made the colors shine real bright
You made the shapes lose all their lines
You turned the darkness into light and so I say
CHROUS
Every little step you take
Every little move you make
It's everything that you say
And the magic you create
'Cause all that I ever wanted
And all that I ever need
You are what I believe in
It's magic that I feel
Well let me tell you that the gal's a ghetto classic
I don't wanna see my life without you here
You've got the power to make my world clear
You made the colors shine real bright
You made the shapes lose all their lines
You turned the darkness into light and so I say
Every little step you take
Every little move you make
It's everything that you say
And the magic you create
'Cause all that I ever wanted
And all that I ever need
You are what I believe in
It's magic that I feel
You got it, baby you got it
All I ever wanted was you
You got it, baby you got it
All I ever wanted is you
So tell me how you feel now
Everything's gonna be alright
As long as you are by my side
Everything's gonna be alright
There's no need for words when the feelin' is right
Every little step you take
Every little move you make
It's everything that you say
And the magic you create
'Cause all that I ever wanted
And all that I ever need
You are what I believe in
It's magic that I feel
You got it, baby you got it
All I ever wanted is you
You got it, baby you got it
All I ever wanted is you
