

Minute By Minute

Sweetbox

I, I know that you were the
first in love
Stuck around while my heart
played dumb
Kept holding on
When I open up to the light
of day
I just hope that I'll see face
Kept holding on
So don't walk away don't walk
away now
I'm here with you I'm with you
right now
Keep holding on keep holding on
Minute by minute, minute by
minute
I'm falling in I'm falling
deeper
Each step I take I'm getting
closer
It won't be long it won't be
long
Minute by minute minute by
minute
I'm seeing things from your
point of view
I'm inching over making room
for two
Keep holding on
I started of thinking
this ain't me
But I've changed directions cuz
I finally see
I want you more
Minute by minute
So don't walk away don't walk
away now
I'm here with you I'm with you

right now
Keep holding on keep holding on
Minute by minute, minute by
minute
I'm falling in I'm falling
deeper
Each step I take I'm getting
closer
It won't be long it won't be
long
Minute by minute minute by
minute
Love just turns us into fools
That's right, look at me with
you
Couldn't see what you always
knew
I hope where I'm going is

somewhere
that you'll be

So don't walk away don't walk
away now
I'm here with you I'm with you
right now
Keep holding on keep holding on
Minute by minute, minute by
minute
I'm falling in I'm falling
deeper
Each step I take I'm getting
closer
It won't be long it won't be
long
Minute by minute minute by
minute

Keep holding on

Minute by minute minute by
