Shout

Sweetbox

* Shout shout let it all out
These are the things I can't do without
Come on
I'm talking to you come on
Let me hear you shout it out
Let me tell you all the things that I can't do without
I jump for joy you get me led
So let me shout about
No doubt I found out
What makes the world go round
And by the times the world is foul
We seem to 'cause
The reason why the world is lost
We believe the world we live in peace
This days some say
One track minds would leave the way
Shout it out something for the world to say
*Rep.
They gave you life
In return you gave them live your hell
Cold as ice
Three wishes like a wishing well
If I could tell change your mind
And turn the time
Dark as night fighting
With the shadow lights
Is everything alright?
Can we do it one time?
We'll shout it out
Until the rise of light
I know you know
We shouldn't have to sell our souls
I shout it out
Just to let the world know
*Rep.
In violent times
we shouldn't have to sell your souls
in black and white
they really really ought to know
you shouldn't have to shout
*Rep.2x
