

## Let's Build A Car

Swell Maps

No more pushing, let's go and build a car,  
We're ready for the fly-past, another slow film.  
Waiting for a minor change, at last the scenery,  
Always saving up to listen to some fiction,  
Try to buy a castle but there's no windows left,  
I don't mind a breakout but there's never enough time.

Whatever you are saving for,  
At least know what you're waiting for.

Don't try pushing, we'd rather buy a car,  
Just waiting for the pictures in some line.  
It's an easy catch in a courtyard when you're trying too hard,  
Always waiting up in case the patterns break,  
Try to catch that look that the others left,  
I don't mind a breakout but there's never enough time.

Whatever you are saving for,  
At least know what you're waiting for.

Don't try pushing, we'd rather buy a car,  
And all the girls in Manchester couldn't steal a car.  
Medieval crosses out but it catches you in time,  
Always waiting up in case there's another invasion,  
Try to buy a castle but there's no windows left,  
I don't mind a breakout but there's never enough time.

Whatever you are saving for,  
At least know what you're waiting for.
