

You've been away for so long  
You can't ask why  
You've been away  
You can't ask why  
You can't ask why

A million stars out tonight  
Could spark neon from candlelight  
One million stars  
Could spark neon from candlelight  
Could spark neon from candlelight

I'm goin' down, down to the market place  
Goin' to learn to give  
I'm goin' down, down by the sea market side  
Goin' to learn to live

The tightropes wound around  
Just one slip and you tumble down  
The ropes wrapped around  
Just one slip and you tumble down  
One slip and you tumble down

I'm goin' down, down to the market place  
Goin' to learn to give  
I'm goin' down, down by the sea market side  
Goin' to learn to live
