

Torn away
And aching to find some feeling
It's gone astray
Deaf are the ears of reason
Hoist me away
The cars on the street make me feel
Safe and sound
And dying to star in the sequel
I hear you say
Am I the only one?
Am I the only one?
Am I the only one?
And take me away

Deaf are the ears of reason
We're so earthbound
On ev'ry town's high rise ceilings
The streets we crawl
Youth at the summit freewheeling
I hear you say

I'm not the only one
I'm not the only one
We're not the only ones
We're not the chosen ones
I'm not the only one
