

# Over

Swervedriver

Don't say it's over  
Don't say it's true  
Don't say it's over  
Don't say we're through

I can't believe it's over  
I can't believe it's true  
I can't believe it's over  
I can't believe we're through

Don't say it's over  
Don't say it's true  
Don't say it's over  
Don't say we're through

The ocean drops  
She cups her hands over me  
We drift out to sea  
And now I can see  
The saving danger waves  
But I wanna see it all  
I want to see  
I wanna breathe it all  
I want to breathe  
I want to breathe  
Wanna breathe  
I wanna

It's all I can do  
To swim closer to you  
The big wide world  
Is beating me around the ears
