

## On the Floor

Swim Deep

I don't think this is more than a need to feel someone close  
Yeah, I wanted space but I can't embrace being alone  
And I've noticed the way that you watch me speak sometimes  
If we dress it up, we could be in love for a night

I wanna pretend  
I wanna pretend  
We could be something, we could be nothing at all  
I'll meet you on the floor

I don't want this to be something we overthink  
There's no reason to talk or make it a thing  
I've been sifting through sentences that I could choose  
To articulate the way I feel around you

I wanna pretend  
I wanna pretend  
We could be something, we could be nothing at all  
I'll meet you, meet you, meet you

It isn't right, but it feels easy  
I know in my mind that you don't see me  
But I think this moment is what we both need  
I used to hate ambiguity

But it's all in our heads  
I wanna pretend  
Don't want this to end  
I wanna pretend...
