

## All I Say, All I Do

Swing Out Sister

Life was young and lives were long  
There was no morning after  
The world was wide  
And made for us  
Each moment filled with laughter

When tomorrow so far away  
Endless nights keep the stars away  
The world run free  
The world will always be  
The best for you and me  
Flying high  
From up high

All I say, all I do  
Makes a difference to you  
All I say, all I do  
Makes a difference to you

Don't look back  
Forget the past  
This dream could last forever  
Life's a game  
We keep on playing  
Win or lose we're still together  
When tomorrow so far away  
Endless nights keep the stars away  
The world run free  
The world will always be  
The best for you and me  
Flying high  
From up high

All I say, all I do  
Makes a difference to you  
All I say, all I do  
Makes a difference to you  
All I say, all I do  
All I say, all I do  
All I say, all I do  
All I say, all I do  
All I say, all I do
