

Butterfly

Swing Out Sister

Hey you, it's been a while
Remember we once said we'd still be friends for all time
Your world is missing a smile
You better use your head and let your heart change your mind
No sense in hiding away that was yesterday
Better at least to say you tried only a fool is ever satisfied
(oh)
Don't give up and don't give in

Doo doo buh buh
Butterfly, take to the sky
Your love is only lost until you find it
Doo doo buh buh
Butterfly, what's on your mind
There's a dream your heart forgot now you remind it

Life may have led you astray
Forever takes it's time when you're still trying to find your way
You feel love passing you by
Just up and look around you'll be surprised at what you find
You thought that chasing a dream was just a crazy game
Open your heart and sing your song
Girl you've been holding back for way too long (oh)
Don't give up and don't give in

Doo doo buh buh
Butterfly, take to the sky
Your love is only lost until you find it
Doo doo buh buh
Butterfly, what's on your mind
There's a dream your heart forgot now you remind it...

Oh...
Don't give up and don't give in...
Butterfly... my butterfly...
Butterfly... my butterfly...
Your love is only lost until you find it
Doo doo buh buh
Butterfly (my butterfly), what's on your mind
There's a dream your heart forgot now you remind it
Butterfly... my butterfly
