

Don't Say The Word

Swing Out Sister

Don't say the word
Somethings are better left unsaid
Don't say the word
A moment you might just regret

Don't say the word
And put your conscience out to rest
Don't say the word
We'll find emotions do the test

When it's real you can't hide what you're feeling
And your heart will reveal more than words could ever say
Until then don't let words get in the way
Don't explain, I'm not listening anyway
I've heard it all before
Don't say the word

It's just a game that people play
Don't say the word
Until you mean the things you say, yeah
Don't say the word
Undo what's already begun

Don't say the word
Because the best has yet to come

When it's real you can't hide what you're feeling
And your heart will reveal more than words could ever say
Until then don't let words get in the way
Don't explain, I'm not listening anyway
I've heard it all before
I've heard it all before
Don't say the word

When it's real you can't hide what you're feeling
And your heart will reveal more than words could ever say
Until then don't let words get in the way
Don't explain, I'm not listening anyway
I've heard it all before
I've heard it all before
I've heard it all before
Don't say the word
Don't say the word
Oh, don't say a word
