

# Something Deep in Your Heart

Swing Out Sister

Finding the words to say  
Whether you go or stay  
Is never gonna be easy

Give to the common goal  
Whether you want to know  
You won't ever believe it

I'm back again  
This joy, this pain  
That we've been running from  
Has been and gone

We can't pretend  
That things have changed  
There'll always be a place  
For you and me  
'Cause nothing comes between friends

Something deep in your heart  
That you can't explain  
Keeps on bringing you closer

Something deep in your heart  
Brings you back again  
When you thought it was over

Finding the words to say

Whether you go or stay  
Is never gonna be easy  
(Something deep in your heart)  
(Bringing you closer)

Give to the common goal  
Whether you want to know  
You won't wanna believe it  
(Something deep in your heart)  
(Brings you back again)

I'm back again  
This joy, this pain  
That we've been running from  
Has been and gone  
Nothing comes between friends, ooh

Something deep in your heart  
That you can't explain  
Keeps on bringing you closer  
(Bringing you closer)

Something deep in your heart  
Brings you back again  
When you thought it was over
