

Where the Hell Did I Go Wrong?

Swing Out Sister

I could have loved you but I couldn't lie
Even if you asked me to
I could have fooled you from the very start
Carried on deceiving you
But time let me down
Turned my whole world around and I stayed for too long
Where the hell did I go wrong?
Won't you tell me
I didn't want you to know
Where the hell did I go wrong?

You saw right through me but you didn't care
Love was just a game to you
You started something that I couldn't stop
Even if you asked me to
I was lost in your smile
And my heart couldn't hide what you knew all along

Where the hell did I go wrong?
Won't you tell me
I didn't want you to know
Where the hell did I go wrong?
I don't know if I should laugh or if I should cry
I know I've fallen in love and I don't know why
But I know I'm alive

Where the hell did I go wrong?
Won't you tell me
I didn't want you to know
Where the hell did I go wrong?
