

# I FOUND YOU

Switch Disco

Drew a line  
Round my heart put my bags in the car  
Drove all night still the tears  
Were falling down  
I turned around

And something changed when I saw you  
It was a lightning strike out of the blue  
Now I know my universe was made by you

Dancing in the dust  
The heartbreak made me  
A little bit lost  
A little crazy  
Had about enough and just when I gave up on love, love  
I found you  
I found you  
Just when I gave up on love, love

Day and night  
Wanna be by your side  
Where you are  
Like a moth to a flame  
That never burns  
My universe is you

Dancing in the dust  
The heartbreak made me  
A little bit lost  
A little crazy  
Had about enough and just when I gave up on love, love  
I found you  
I found you  
Just when I gave up on love, love

I searched the deserts and oceans  
You took my world, turned it upside down  
And now we move in slow motion  
Just you, and I

Dancing in the dust  
The heartbreak made me  
A little bit lost  
A little crazy  
Had about enough and just when I gave up on love, love  
I found you  
I found you  
Just when I gave up on love, love  
I found you
