VACANCY

Switch Disco

Oh, I know it's getting late
But I keep a little space
For when you come around
Why don't you come around?
Come on open up the door
What you waiting, waiting for?
All the lights are down
In this empty house, you know it's true

For you, baby
My heart got a vacancy
I need you to take the key
I got room for you

Oh, can't you see?
My heart got a vacancy
Give your heart a place to sleep
I got room for you

(I got room for you)

Say the things we wanna say
'Til the dark turns into day
Oh, won't you come around?
I'll never let you down

If you're lonely in the night, you won't
Won't be lonely by my side, oh no
I just wanna let you in, inside
Can you make me whole again?
You know it's true

For you, baby
My heart got a vacancy
I need you to take the key
I got room for you
Can't you see?
My heart got a vacancy
Give your heart a place to sleep
I got room for you

I got room for you
I got room for you
I got room for you
