

# Come Alive

Switch

You come in like a whirlwind, wrecking everything that I thought was true (true)  
Then I realize from beginning to the ending You are good (good)  
You can take the lead, I'll follow through the shadows to the unknown (-known)  
I can feel it now, take me where You wanna go

(I come alive) When I find You  
'Cause everywhere You are is where I wanna be  
(I come alive) When I've got You  
I know there is nothing better  
(I come alive) When I find You  
'Cause everywhere You are is where I wanna be  
(I come alive) When I've got You  
I know there is nothing better  
  
I know there is nothing better  
I know there is nothing-

There's nothing like a moment, caught up in Your closeness here with me (me)  
Feels just like the sunrise, breaking from the gray skies, I feel free (free)  
Never been a moment that You haven't been right by my side (side)  
There'll never be a reason I should have to run and hide

Oh, I come alive when I find You  
'Cause everywhere You are is where I wanna be  
(I come alive) When I've got You  
I know there is nothing better  
(I come alive) When I find You  
'Cause everywhere You are is where I wanna be  
(I come alive) When I've got You  
I know there is nothing better

Nothing better, there is nothing better  
Nothing better, there is nothing better  
Nothing better, there is nothing better  
Nothing better, there is nothing better, better, better, better

(I come alive) When I find You (yeah, ooh)
