

Covered

Switch

Highs and lows
You know I ride them
Day and night
You've got my back in the fight
Catch my breath
I'm gonna trust you
I'm gonna trust you

Play that song
Louder and louder
Dancing now
Feeling the freedom I've found
In your love
I'm gonna trust you

Now I'm out here walking on air
Everywhere I go I know you're right there
Even when I don't know what's coming next
You've got me covered
You've got me covered
And when I can't make sense of my thoughts
Even when I'm feeling a little bit lost
I know you'll be right there to help me back up
'Cause you've got me covered
You've got me covered...

Sunshine
Brighter than ever
Feels so right
You turn my darkness to light
Deep breath
I'm gonna trust you
I'm gonna trust you

And now I'm out here walking on air
Everywhere I go I know you're right there
Even when I don't know what's coming next
You've got me covered
You've got me covered
And when I can't make sense of my thoughts
Even when I'm feeling a little bit lost
I know you'll be right there to help me back up
'Cause you've got me covered
You've got me covered...

Now I'm out here walking on air
Everywhere I go I know you're right there
Even when I don't know what's coming next
You've got me covered
You've got me covered
And when I can't make sense of my thoughts
Even when I'm feeling a little bit lost
I know you'll be right there to help me back up
'Cause you've got me covered
You've got me covered...
