

# Further

Switch

Indescribable mystery  
That I can't comprehend  
You're the answer in front of me  
You're one step ahead  
You are holding a destiny  
That I long to embrace  
You are going ahead of me  
Preparing the way

Like the sun when seen from up above  
Can never set upon the father's love  
When forever's just a step away  
You go even further  
Your horizon takes my breath away  
Like the wonder of the galaxies  
Beyond the measure of eternity  
You go even further

I can trust in your plan for me  
'Cause I know in the end  
Through the night there are promises  
The day can defend

Like the sun when seen from up above  
Can never set upon the father's love  
When forever's just a step away  
You go even further  
Your horizon takes my breath away  
Like the wonder of the galaxies  
Beyond the measure of eternity  
You go even further

You go even further...

You look beyond  
The old me is gone  
You said it is done  
But you went even further  
Put death in its grave  
You canceled my shame  
My past in its place  
I'll go even further

Like the sun when seen from up above  
Can never set upon the father's love  
When forever's just a step away  
You go even further  
Your horizon takes my breath away  
Like the wonder of the galaxies  
Beyond the measure of eternity  
You go even further

Yes, you go further...
